Market Review

The FBM KLCI dropped 3.2% in 2Q2023 to close at 1,377 making it one of the worst performing markets as investors took caution over the political uncertainties in the local market with the upcoming State Election. China's slower-than-expected economic recovery also soured sentiment as the expectation of spill-over effect to the region dampened. The index dropped 7.9% year-to-date to 1,377, in line with the regional indices' performance.
